

# OSSP (Operating Systems And Systems Programming)

Course code: 25CS2104E

Practical-05 client-server application

Code output:

A)

Terminal1

```
sushma_sree@LAPTOP-6PJSRT08:~$ gcc practical6,1a.c
sushma_sree@LAPTOP-6PJSRT08:~$ ./a.out
Server waiting for client...
Client says: hello
```

Terminal2

```
sushma_sree@LAPTOP-6PJSRT08:~$ gcc practical6,1.c
sushma_sree@LAPTOP-6PJSRT08:~$ ./a.out
Enter message: hello
Server says: Message received by server
```

B)

Terminal1

```
sushma_sree@LAPTOP-6PJSRT08:~$ gcc practical6,2.c
sushma_sree@LAPTOP-6PJSRT08:~$ ./a.out
Process ID: 10211
Waiting for signals...
```

Press ctrl+c

```
sushma_sree@LAPTOP-6PJSRT08:~$ gcc practical6,2.c
sushma_sree@LAPTOP-6PJSRT08:~$ ./a.out
Process ID: 10211
Waiting for signals...
^C
SIGINT received
```

Terminal2

```
sushma_sree@LAPTOP-6PJSRT08:~$ kill -SIGUSR1 10211
```

Now in terminal1

The output is

```
sushma_sree@LAPTOP-6PJSRT08:~$ gcc practical6,2.c
sushma_sree@LAPTOP-6PJSRT08:~$ ./a.out
Process ID: 10211
Waiting for signals...
^C
SIGINT received
SIGUSR1 received
```
